### Events Conducting 2k23

Students feel that the Events Conducted in NECTS 2k 23 were very much useful for them. It is planned to extend this National Level Technical Symposium 2024 and is also interested to participate in a number of events outside the college. The National Level Technical Symposium organized by the Department of Civil Engineering was a remarkable success. It provided a significant platform for knowledge dissemination fostering collaboration and promoting innovation in the field of civil engineering. The symposium not only showcased cutting-edge research and developments but also ignited a spirit of enthusiasm among the participants to contribute further to the advancement of the discipline.

The event would not have been possible without the dedication and hard work of the organizing committee the support of the faculty and staff and the active participation of the attendees. The symposium's success serves as a testament to the Department of Civil Engineering's commitment to nurturing talent promoting research and bridging the gap between academia and industry.

Overall, the symposium was a resounding achievement leaving a lasting impact on all who attended. It has undoubtedly paved the way for future collaborations research breakthroughs and advancements in the field of civil engineering.
