

### Department of Electronics and Communication Engineering

### Report on "Banking and Non Banking Jobs & GATE Exams"

The department of Electronics and Communication Engineering has conducted "Banking and Non Banking Jobs & GATE Exams" under Career Guidance Cell on 09/02/2023. Students of III and IV Year B.Tech students has participated in this event. The resource person for this event was Mr. Bhakthavathsala Reddy, Director, IACE. Dr. K. Murali, HOD of ECE introduced the resource person and handover the session to the resource person.

Many people are interested in having a career in banking. There are many opportunities available to those who work in the banking sector, ranging anywhere from entry-level to high upper management. Working in the banking sector also means working in a field that is consistent and a reliable source of work and well-paid jobs.

Credit unions and banks have a variety of services and financial products available for consumers. The people that are employed within these banks and credit unions manage money transactions every day. These people are trusted to access customers' accounts, loaning money and much more.

*Resource person explaining about various banking & Non-banking jobs*

Having a career in banking provides you with many skills that can be used in different areas of the banking sector such as a branch manager, a teller, or administrative staff.

There are many advantages to these careers. A position in banking is a good fit for a person who enjoys working with both numbers and the public.

You can join an internship while pursuing B.Tech. This will help you in gaining the required work experience before you start looking for jobs after B.Tech. Through internships, you can learn the practical applications of the knowledge that you have acquired through the course. Based on this experience, you can assess if you either need to pursue higher studies or you are more comfortable with getting a job. Internships also helps you identify your capabilities as a professional and the areas where you need improvement.

*Students actively participating in the event*

Public Sector Undertaking(PSU) include the companies that are partially owned by the state or central or both government sectors. Some of the popular PSU companies include BHEL, LIC, Hindustan Copper Limited, and NALCO.

After completing B.Tech, you can enter PSUs and get a lucrative job. You can get a job either on a permanent or contractual, or temporary basis. PSUs recruit employees based on two categories:

- ✓ with a valid GATE score
- ✓ without a GATE score

The PSUs that appoint employees based on the GATE score announce the required GATE score for application every year.

*Dr. K. Murali, HOD of ECE delivering vote of thanks*
