

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

BRIDGE COURSE ON "MATLAB"

Department of ECE conducted a bridge course entitled "MAT" for the II-B.Tech ECE students on 18-7-19. The course was conducted in two sessions from 11:00AM To 01:00PM and 02:00PM To 4:00PM. The objective of this course is to give basic knowledge on various types of sensors and its applications in real time operating systems

The topics covered under this bridge course are:

Session-1 (11:00AM To 1:00PM) by R.Venkateswarlu

- Introduction to MATLAB.
- Operations on Matrices.
- Mat lab Windows.
- Basic programming structures.

Session-2 (02:00PM To 4:00PM) by R.Venkateswarlu

- Fundamentals of various Arrays.
- Plotting styles and plotting colors.
- Conditional statements and loops.
- Examples how to write a new matlab program.
- Subplots, Overlay plots, 2D Plots.
