# Awareness on
# "Career Opportunities in Software Testing"

Department of ECE, NECN organized an Awareness program on "Career Opportunities in Software Testing" on 18-08-2018 by the Alumni Mr. Shameer Hussain, QA Analyst, Infor. He had 2 years experience in Software Testing.

Mr. Shameer Hussain stated that "The purpose of Software Testing and Quality Assurance is to provide the means and also the measures for testing all the aspects of a software solution, both functionally and technically, in order to meet the requirements and overall quality of the intended solution."

He also discussed about the roles and responsibilities of software tester, he said that "This person is responsible for creating an end-to-end test plan; executing the plan and managing all activities in the plan to ensure that all the objectives are met and that the solution works as expected. The solution should be tested in terms of functionality, performance, reliability, stability and compatibility with other legacy- and / or external systems. To make sure that testing is well defined, planned and executed. The analyst does this by ensuring that every phase and feature of the software solution is tested and that any potential issue is identified and fixed before the product goes live."

Finally he discussed the various opportunities and job roles in testing field
