Name of the Activity: Dental Check up Camp

Venue: TP Gudur, Nellore.

Participants: TP Gudur Villagers.

Date: 10-02-2017

Time: 10.00 A.M to 4 P.M

Report:

Poor Dental health and untreated Dental diseases and conditions can have a significant impact on quality of life. By maintaining good oral hygiene practices, various dental problems can be kept under control and improve the health condition of the people. To achieve this, oral health education and bringing awareness play an important role, especially for the school children. Thus, such education is essential for behavioral change, improving health and quality of life.

Narayana Engineering College, Nellore in association with Narayana Medical College & Hospital, Nellore has organized a Dental check-up camp for the TP Gudur villagers on 10th February 2017. About 15 staff members and 150 students have participated in the event. Main motto of organizing Dental Check up Camp in TP Gudur, SPSR Nellore is to reduce the impact of dental diseases and help the villagers live healthy lives, To increase awareness level of children on oral health and hygiene and its importance for healthy life and to improve oral health conditions of the children from poor milieus by providing treatment services the medical camp was conducted.

Name of the Activity: **Awareness Campaign on Digital Literacy**

Venue: AC SUBHA REDDY STADIUM, Nellore

Participants: Local people of Nellore

Date: 01-04-2017

Time: 9:00 AM to 6:00 PM

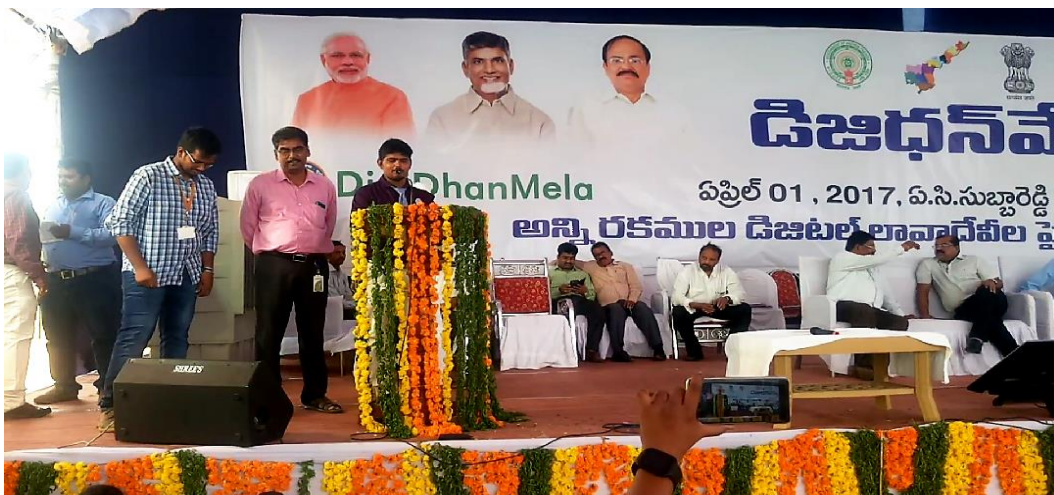

Report:

Digital literacy has become essential for learning and life. Besides cutting across various disciplines it must now be considered as being a discipline of its own such as for music, art, science and literature. Digital literacy education seeks to equip learners with the competencies (knowledge, skills and attitudes) in the use of digital technology needed to access learning opportunities, to pursue their chosen careers and leisure interests and to contribute to society as active citizens. It also aims to provide to pursue them with knowledge of the principles underpinning these technologies and a critical understanding of the implications of digital technology for individuals and societies.

Narayana Engineering College, Nellore Organized an Awareness Program on Digital Literacy by arranging a stall at AC SUBHA REDDY STADIUM, SPSR NELLORE on 01-04-2017 in Association with Collectorate of SPSR Nellore. We explained BHIM App and its advantages. How to transfer cash from one account to another account using BHIM App. Mr.K.Vinay Kumar, Assist Professor was provided a chance to address the audience regarding BHIM App usage and its advantages. 100 students and 13 staff members have actively participated in the event.

Report on Awareness Program on Adult Literacy

Name of the Activity:	Awareness Program on Adult Literacy
Venue:	Komarika village, Indukurpet Mandal
Participants:	Teaching Staff and Students
Date:	20/12/2016
Time:	10.00 A.M to 3.00 P.M
No. of Participants:	79 students and 8 staff

Report:

Our interaction with the parents of our students in parents' meet allowed us to identify the low rate of literacy of the adults in their villages. Traditional barriers, unawareness of uses of education and shy feeling in going to school are some of the causes for the increase in the rate of adult illiteracy.

As responsible literates of Narayana Engineering College, Awareness Programme on "Adult Literacy" was organized by Electrical and Electronics Engineering department at Komarika village, Indukurpet Mandal, Nellore on 20/12/2016. The avocation/profession of most of the people living in this village is fishing or farming.

We hope that this program may bring transformation in a minimum number of villagers as well as children of that village in such a way that atleast they can be able to read, write in the mother tongue. They are empowered with the knowledge needed to earn money and increase income. They need to learn about healthy eating, good hygiene, and overcome social ills such as looking down upon daughters. In addition to being set themselves free from the confines of illiteracy, 70 students and 8 Staff members participated in the programme.

Report on Awareness Program on Dengue Fever

Name of the Activity:	Awareness Program on Dengue Fever
Venue:	M. P.P. ELEMENTARY SCHOOL, Buchireddy Palem, Nellore.
Participants:	Faculty and Student
Date:	23/11/2016
Time:	10.00 A.M to 3.00 P.M
No.of Participants:	49 students and 6 staff

Report:

The stagnant water because of unexpected rains in some of the areas nearby our college increased the mosquito breeding rate. Within a short period, before taking preventive measures, the viral diseases like dengue fever affected the local people during that time.

Taking it as an urgent issue, the department of Mechanical Engineering on 23/11/ 2016 has organized an awareness Program on "DENGUE FEVER" at M. P.P. ELEMENTARY SCHOOL, BuchireddyPalem, Nellore.

The program was launched with the main objective of prevention and control of dengue amongst students and also spreading awareness on symptoms of this fever when they got infected. In order to create awareness among the public in this area about the causes and consequences of Dengue fever, we have chosen the school students as a major source who can reach out to their families and neighbours, and educate them on causes and remedies.

Report On Safety during Cyclones for Fishermen

Name of the Activity:	Awareness Program on Safety during Cyclones for Fishermen
Venue:	Thupilipalem, Vakadu Mandalam
Participants:	Teachers and Students
Date:	18/11/2016
Time:	10.00 A.M to 3.00 P.M
No. Of Participants:	43 students and 6 staff

Report:

Nearby our college there is a large trading centre for buying and selling the fish. There is a great threat to lives of fishermen during periods of cyclone. They have inadequate preparation for emergencies, and they are not serious on adverse weather conditions. Their unawareness of modern preventive methods and safeguarding devices causes much loss to them.

To address this issue and to provide knowledge on climatic changes especially on cyclones, tsunami etc., Department of Electronics and Instrumentation Engineering has taken an initiative and visited Thupilipalem, Vakadu mandalam to interact with local bodies and fishermen about the precautionary measures to be taken during cyclones and other calamities.

They suggested the fishermen to Store loose items inside, Put extra stock like rice in plastic bags and store it by digging up a hole in the ground, preferably at a higher elevation and then cover it properly if other storage facilities are not available. Fill bins and plastic jars with drinking water; Keep clothing for protection, handy. Pack warm clothing, essential medications, valuables, papers, water, dry food and other eatable and value items in waterproof bags, to be carried along with emergency kit.

Report on Govt. Insurance Facilities and Policies to the Poor

Name of the Activity:	Awareness Programme on Govt. Insurance Facilities and Policies to the Poor
Venue:	RV Kandriga village, Nellore
Participants:	Teachers and Students
Date:	03/09/2016
Time:	10.00 A.M to 3.00 P.M
No. Of Participants:	73 students and 9 staff

Report:

Our management identified that most of the people even educated, are unaware of government insurance policies, their benefits and eligibility criteria completely. To increase the awareness and to bring clarity about the policies conducting awareness programme is a great assistance to the public, particularly to the villages.

With that intention, being one of the responsible citizens, our Electronics and Communication Engineering department, Narayana Engineering College has organized an awareness programme on 03/09/2016 at RV Kandriga village, Nellore.

Faculty and students of our college explained the schemes and facilities available in various domains such as health insurance, bank loans for SC/STs, pension provision, risk coverage etc., to the people. Staff members and students also distributed the handouts to the villagers which provide them lot information regarding the schemes and policies which are beneficial when problems occur.
