A BRIEF DESCRIPTION OF THE EVENT:

Department of ECE in association with NSS Unit of Narayana Engineering College, Nellore organized Sampling Distribution at Z.P high school. He stated that, Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. According to the U.S. Department of Agriculture, "One acre of forest absorbs six tons of carbon dioxide and puts out four tons of oxygen. This is enough to meet the annual needs of 18 people." About 5 staff members and 35 students have actively participated in the sampling distribution and planted the saplings in an organized way at Z.P high school.

A Brief Description of the Event:

With an aim to spread awareness about firecrackers causing noise and air pollution and numerous health hazards to human beings and animals, students of ECE department, NARAYANA ENGINEERING COLLEGE, Nellore took out an Anti-Cracker Rally on 26th October'19. Our department organizes the rally every year ahead of Diwali to send out the message of minimizing the use of crackers and to celebrate the green and safe festival. The young eco warriors carried colorful placards and raised slogans like 'Say no to crackers and yes to life' to cultivate a sense of duty towards their environment and society. These enthusiastic planet pals also reached out to a large gathering present in the c-block auditorium and enthralled the audience with their thought provoking slogans. The harmful effects of

crackers to health and environment were brought to the fore front by the children with a request to all to celebrate this Diwali without crackers.
