DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Report on Project Idea Presentation

The department of ECE has Conducted **"Project Idea Presentation "** on behalf of **"IETE Student Forum (ISF)",** on 23-11-2023 Students of B.Tech II, III & IV Year were participated in this event.

Certainly! To provide you with a project idea presentation, I'll outline a sample structure for your presentation. Feel free to customize it based on your specific project and audience. Let's assume your project is related to developing a mobile application that helps users track and reduce their carbon footprint.

Project Idea Presentation: "EcoTrack - Your Carbon Footprint Companion"

Title: EcoTrack - Your Carbon Footprint Companion

Subtitle: Empowering Users for a Greener Tomorrow

Project Overview: Briefly describe the EcoTrack app and its main purpose.

Problem Statement: Highlight the environmental challenges and the need for individual carbon footprint reduction.

Primary Objective: Reduce individual carbon footprints through awareness and actionable insights.

Secondary Objectives: Foster a community, educate users about eco-friendly choices, and provide real-time feedback.

Demographics: Identify the primary users - age group, interests, lifestyles.

Why EcoTrack?: Explain how the app meets the needs of the target audience.

 Features

Carbon Tracking:Demonstrate how the app tracks daily activities affecting the carbon footprint.

Personalized Recommendations:Showcase how EcoTrack offers personalized tips for reducing carbon footprint.

Community Engagement: Highlight features that promote community interaction and knowledge sharing.

Technology

Platform:Specify whether it's iOS, Android, or both.

Frameworks/Languages: Mention the technologies used for development.

Security Measures:Briefly discuss how user data and privacy are protected.

User Interface

Design Principles: Share the key design elements focusing on user experience.

Screenshots/Prototypes: Include visuals of the app interface to give a sneak peek.

Implementation Challenges

Data Accuracy:Discuss how you ensure the accuracy of carbon footprint calculations.

User Engagement:Address potential challenges in keeping users consistently engaged.

Marketing Strategy

Launch Plan:Outline your strategy for launching the app.

User Acquisition: Briefly describe how you plan to attract and retain users.

Partnerships: Mention any potential partnerships with environmental organizations or influencers.

Future Developments

Upcoming Features: Tease potential updates or new features.

Expansion Plans: Discuss any plans to expand the app's reach or functionality.

<u>Winners List of Project Idea Presentation</u>

S. No	Roll No	Name of the Student	Class	Prize
1.	21711A04E5	K.V.Bhumisree	III ECE-C	
2	21711A04F1	M .Navya	III ECE-C	I
3.	21711A04I3	T.Likhitha	III ECE-C	
4.	21711A04D3	A.Harika	III ECE-C	II
5.	21711A04D7	D.Vaagdevi	III ECE-C	
6.	21711A04D8	E.Nandini	III ECE-C	III
