NARAYANA ENGINEERING COLLEGE :: NELLORE

Report:

The Resource Person Mrs. A. Vijaya lakshmi, Village Women Protection Secretary, Nellore. She has given awareness providing guidance to students on how to create a personal security on safety apps. The zoom credentials meeting ID is 622335 and password is 380091.

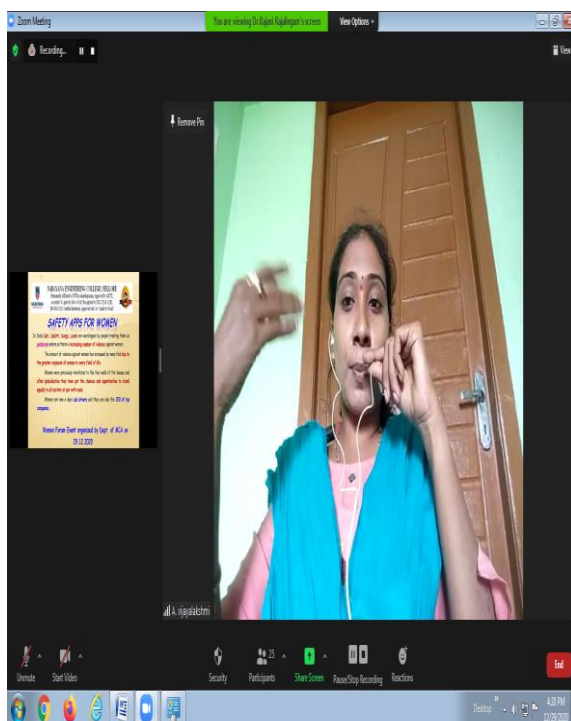

She gave some suggestions for girl students, how to protect themselves when they are alone through power point presentation, that one should know about personal safety. In now-a-days women are using smart phones have increased rapidly and hence, a smart phone can be used efficiently for personal security or various other protection purposes. The best way to minimize chances in becoming a victim of violent crime such as robbery, sexual assault and domestic violence is to identify and call on recourses to help out of unsafe situations. The best way to minimize chances in becoming a victim of violent crime (robbery, sexual assault, rape, domestic violence) is to identify and call on resources to help you out of unsafe situations.

To face the problems in unsafe situations use of new apps have been developed to provide security system to women on their phones.

- The Resource person projected different types of apps, which will act as a security guard for the woman, protecting them in every situation. The different apps such as
 - Eyewatch SOS for Women

- iGoSafely
 - Smart 24x7
 - bSafe
 - Shake2Safety
 - CitizenCop and Chilla
- Technical services division of the Andhra Pradesh developed DISHA app. It is a step towards the safety and location by Andhra Pradesh Govt. Disha SOS services helps the women and citizens in emergency situations.
- Disha app sends an alert to the Disha control room when a woman or girl in distress just shakes the mobile phone which contains the Disha App.
- This app also integrated with needful information like nearby safety places, near police stations, nearby hospitals and useful contacts.

Finally the resource person concluded that, every woman should be aware of technical safety measures which help to protect them from vulnerable situations. Total 30 girl students were attended in the program. The students gained knowledge with the session. The students participated interactively in the session.
