

HUMAN VALUES AND ETHICS CELL

NARAYANA ENGINEERING COLLEGE::NELLORE

Human Values and Ethics Cell aims to bridge the much necessary gap between the prevalent human condition and the envisioning of a happy and prosperous world. Through the introduction of this cell, an attempt is made to draw the attention of our stakeholders towards the problems and challenges that are confronted by them at individual, family, society and nature levels.

The modern day man is beset with many problems; the chief among them is the feeling of alienation and roots. Questions about the meaning of life and one's purpose in this world remain unanswered for majority of the people. In the absence of correct understanding of one's aim, people face problems at the individual level, family level, society and at the level of nature. Whichever level of existence we might concentrate on, people are restless, unhappy, jealous and bogged down with alienation. This attitude is carried forward when they have to interact with nature where they end up mercilessly and mindlessly in exploiting the nature.

The purpose of education is to provide all encompassing solutions to the problems faced by the people. The tragedy of the prevalent system is that our education is more oriented towards creation of skill sets rather than transforming the students into rational, responsible and ethical thinking human beings who can take policy decisions for the welfare of masses without harming the coexistence with nature.

Apart from the regular course, hoped that the Human Values and Ethics Cell of the Institution ensures that the students are made aware of the problems and their possible solutions through self exploration. The Cell will ensure that the students internalize the fact that they have to respond to situations instead of reacting to them. At the same time, the Cell facilitates the students to identify their social responsibilities. Through the activities of the Cell, an effort is made to rid the society from the ills prevalent. Further the Human Values Cell will ascertain that the students realize that they have a lot of potential which when realized will propel the society forward in a positive direction.

Objectives of the cell

- To develop the faculties of the students so that they are capable of discriminating between the values and insignificance in life.
- Sharpening the critical and analytical faculties of the students.
- To sharpen the sensitivity of the students towards nature.
- To kindle the skills of the students to understand their responsibility towards family, society and the entire existence.
- To make the students aware that wealth is not everything in life, in every respect.
- To aware the students regarding the correct understanding of happiness and prosperity.
- Develop Right Understanding by sharing the understanding of what to do.
- To emphasize on Technical Education by teaching how to approach a particular situation.
- Practice Right manner of living during the period of education.
- Living in harmony with human beings, leading to mutual happiness.
- Living harmoniously with rest-of-the nature leading to mutual peace and prosperity.
- To develop universal values (Truth, Righteous conduct, Love, Non-Violence and peace); national values, human values, national integration, communal harmony and social cohesion.

The Human enrichment, Integrated Personality development and character building could be effective, through non-formal way of seeking a positive change in the value/temper of students and Teaching and non teaching staff. Such programs could be organized during vacations or after the study/working hours. These programs could include presentations and discussions on different themes like spiritual, moral, aesthetic, social, cultural, environmental values, values of democracy, scientific temper, communication skills, problems of youth, career choices, national integration, communal harmony and social cohesion.etc.

Awareness and sensitization program could be in the form of lectures, workshops for a day or two aimed at specific groups, like faculty members, students of a particular discipline, academic administrators, non-teaching staff etc.

The process of developing into a modern nation, with new social, political and economic institutions, and with an emphasis on science and technology, has

thrown up many new values/ challenges in all walks of our life. It is important that we closely examine these challenges and prepare our youth to face these challenges and help them by resolving these challenges.

Positive outcomes of the cell

The students will be able to develop holistic approach to and interaction with society and nature. They will be able to fulfill their relationship with each and every unit within the existence. The students will evolve as more responsible citizens of the society through self introspection and by learning right understanding, giving priority to relationships and not to wealth. The learners will realize the relevance of their existence at four levels of living. Over a period of time, such value-based education can contribute to the development of a human and humane society. This cell contributes, through Value Education, to overall world view that is required for a humane society.

The Human Values and Ethics cell shall consist of the following members:

1	Professor Incharge	Coordinator of the cell
2	Faculty Incharges - Dept	Members of the cell
3	Students- one from each Dept	Members of the cell

Tenure / Duration of the committee:

- one year

Frequency of the Meetings

- Coordinator and Members (Faculty & Students) will meet once in three months (Fourth Saturday) to review the progress / schedule the activities of the Cell and to organize extraordinary meeting depending on exigencies, as when necessary, as per the recommendation of the cell in consultation with the coordinator and the Principal.

HUMAN VALUES & PROFESSIONAL ETHICS CELL

Report
on
Understanding of Harmony in the Society

Date:23-12-2022

Human values and professional ethics cell conducted an awareness program on “Understanding of Harmony in the Society” on 23-12-2022 at CSE seminar hall NECN. Mr. M. Bhanu prakash, pragathi academy of culture and education, a motivational speaker addressed II B.Tech CSE students and brought awareness on Harmony in the society. Harmony is infact present life with happiness. A real happiness in his view existing in leading life with whatever we possessed. The brotherhood among people in the society and coordination among them promotes peace and Harmony in the society.
