REPORT:

NARAYANA ENGINEERING COLLEGE, NELLORE has organized a Free Medical Camp In association with Narayana Medical College & Hospital, Nellore on 02-04-2018 at ChintaReddy Palem, Nellore. Free medical camps are arranged with a sacred aim to bring awareness on health care amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are suffering from. These camps make sure that people get healthcare at the right time, and visiting the doctor early enough before a small health problem turns serious. Doctors from Narayana Medical College and Hospital conducted the camp, included general physical examination, Blood Pressure check up, BMI checkup, Head ache etc. Necessary medical advice and precautionary measures were extended and medicines were distributed to the villagers. 70 students and 8 staff members have actively participated in the event.

8	Enclosures	Report Photos		

REPORT:

Department of Civil Engineering organized an Awareness Program on Plastic Free Society at Narayana Reddy Pet, Nellore on 03-07-2017. The residents of Narayana Reddy pet, were explained the consequences of Plastic Waste. We told them that, Plastic, the wonder material that we use for everything and which pollutes our environment, is perhaps the most harmful of waste dumped by mariners and those travel on sea because it does not readily break down in nature. In fact, the plastic that is dumped as waste still be around in hundreds of years hence to foul up the fishing gear, boat propellers, and beaches of future generations. Careless disposal of plastic can have serious consequences. A plastic bag looks like a tasty jellyfish to an indiscriminate feeder like the sea turtle, but plastic is indigestible. It can choke, block the intestines of, or cause infection in those animals that consume it. 5 staff members and 62 students have actively participated in the event and made it a grand success.

9	Enclosures	1.Report 2.Photos		

Report:

NARAYANA ENGINEERING COLLEGE, NELLORE organized an Awareness Program on EAMCET MOCK TEST in our campus. We invited senior Intermediate students from nearby Intermediate colleges to provide them an awareness on EAMCET Mock Test. The motto of conducting this program is to enable candidates to get familiarized with the functionalities of the exam, which is slated to be conducted in computer-based mode for the first time this year. We explained the format of EAMCET Mock Test as follows

Type and number of questions: A total of 160 multiple choice questions will be asked from three sections – physics (40 questions), chemistry (40) and mathematics (80).

Navigation: The three sections will be displayed at the top of the bar. To move from one section to another, simply click on the specific section.

Answering questions: The candidate can answer/shuffle any question in a section or across sections within the stipulated time.

Keeping track of time: The mock test has a timer at the top right corner of the screen, which indicates the time left in completion of the exam.

Status of questions: To make it easy for the candidates, different colour palette is used to indicate the status of a question

REPORT:

We organized an Awareness Program on Waste Management at Narayana Medical College & Hospital, Nellore on 03-07-2017. Mrs.K.Mounika, Assistant Professor, Dept of CIVIL explained on the safe disposal of hospital generated waste starting from the collection areas to the final disposal procedure and she explained to that, Hospitals patients and House Keeping staff of Narayana Medical College and Hospital, Nellore are important places for the generation of waste. Every department in the hospital generates waste and the overall product is waste of different kinds; healthcare, household and administrative waste. Healthcare waste includes infectious, chemical, expired medicines and radioactive items and sharp materials . These items can be pathogenic and environmentally dangerous. They are referred to in this article as hazardous healthcare waste. Other waste items generated through healthcare but not hazardous which include medication boxes, the packaging of medical items and food, remains of food, and waste from offices.

Report:

In the vicinity of our college, there are many aquaculture farms. Few of these farms maintain maximum salinity level, indiscriminate use of chemicals and pesticides for the growth of prawn and fish. This has an impact on ground water which was earlier used for drinking and causes amebiasis and diarrhea and other health issues in the public. To address this issue and to create awareness, Dept. of Civil Engineering has visited Utukuru village, Vidavaluru Mandal, SPSR, Nellore.

Report:

.Our college is surrounded by many thermal power plants. In the surroundings of these plants, there are many villages. Noise from the plants causes slow and gradual effect to ear drums. Carbon particles in the dust released from the plants affect growth of crops and destroys produce. Villagers have a little knowledge on the bad effects of carbon emission. Since Brahmadevam village is surrounded by Power Plants and the village is affected by carbon emission, air pollution, we have chosen this village to conduct an awareness programme to the villagers on these issues. Faculty suggested the above said remedies to the problem.

REPORT:

Despite plenty of rainfall every year, some of the areas nearby our college have water shortages and droughts. The scarcity of water forces them to depend on rain water. But, the seasonal rain water is being wasted. It is not coming to their use when needed as there are no tanks and wells. Hence, we have chosen this village to bring awareness on the necessity of check dams to conserve rain water.

Report on Addressing Issues Due to Fluorine content in Ground Water

1	Name of the Activity/Event	Addressing Issues Due to Fluorine content in Ground Water		
2	Date of Activity/Event	07/10/ 2017		
3	Organized by/Name of the committee	Department of Mechanical Engineering		
4	Place of Activity/event	Sydapuram Village, Chillakur Mandalam, Nellore		
5	Type of activity/Event	Awareness Programme		
6	Activity/Event objectives	<ol style="list-style-type: none"> 1. To dilute the groundwater contaminated with fluoride 2. To Use Bone Char Carbon to purify water 3. To take distilled water 4. To collect rain water 		
7	Participation	Students	Faculty	Total Participation
		51	8	59
8	Enclosures	<ol style="list-style-type: none"> 1.Report 2.Photos 		

Report:

A few localities nearby our college are affected by fluoride water. Such water causes tooth decay, Thyroid, Neurological problems, skeletal fluoridise, which can damage bones and joints. Hence, we have chosen this village especially to educate them on how to take measures to have safe drinking water. The villagers responded positively and the program was successfully organized.

Report of Government Insurance facilities & Policies to the poor people

1	Name of the Activity/Event	Govt. Insurance Facilities and Policies available to the Poor People		
2	Date of Activity/Event	17/03/2018		
3	Organized by/Name of the committee	Department of ECE		
4	Place of Activity/event	Vorigunda village, Nellore		
5	Type of activity/Event	Awareness programme		
6	Activity/Event objectives	To educate about 1. Pradhan Mantri Jeevan Jyoti Bima Yojana 2. Pradhan Mantri Suraksha Bima Yojana 3. Atal Pension Yojana and 4. Other related policies		
7	Participation	Students	Faculty	Total Participation
		57	10	67
8	Enclosures	1.Report 2.Photos		

Report:

Our management people, as a part of their social responsibility, collected the data regarding the latest govt. insurance policies for human beings, crops and livestock. The villagers are afraid of risks in life and risks in heavy investment on crops and livestock since they are unaware of these policies and benefits. Hence, we selected this village to organize an awareness programme to make them learn about such policies.

Report on Environmental Pollution

1	Name of the Activity/Event	ENVIRONMENTAL POLLUTION		
2	Date of Activity/Event	2 nd April, 2018		
3	Organized by/Name of the committee	Department of Civil Engineering		
4	Place of Activity/event	Utukuru village, Vidavaluru Mandal, SPSR, Nellore		
5	Type of activity/Event	Awareness Programme		
6	Activity/Event objectives	4. To establish a framework that protects ground water 5. To use buffer zones for removal of contaminated water 6. To have boiled water for drinking and take it through a water filter.		
7	Participation	Students	Faculty	Total Participation
		46	5	51
8	Enclosures	1.Report 2.Photos		

Report:

In the vicinity of our college, there are many aquaculture farms. Few of these farms maintain maximum salinity level, indiscriminate use of chemicals and pesticides for the growth of prawn and fish. This has an impact on ground water which was earlier used for drinking and causes amebiasis and diarrhea and other health issues in the public. To address this issue and to create awareness, Dept. of Civil Engineering has visited Utukuru village, Vidavaluru Mandal, SPSR, Nellore.

Report on Effects of Carbon Emission, Air Pollution and Their Remedies In Surrounding Areas Of Power Plants

1	Name of the Activity/Event	Effects Of Carbon Emission, Air Pollution And Their Remedies In Surrounding Areas Of Power Plants		
2	Date of Activity/Event	27/12/2017		
3	Organized by/Name of the committee	Department of Electrical and Electronics Engineering		
4	Place of Activity/event	Brahmadevam village, Muthukur Mandal, Nellore		
5	Type of activity/Event	Awareness Programme		
6	Activity/Event objectives	4. Advised to plant more shade trees 5. Use of personal protective equipments 6. Use of coolers in houses		
7	Participation	Students	Faculty	Total Participation
		69	9	78
8	Enclosures	1.Report 2.Photos		

Report:

Our college is surrounded by many thermal power plants. In the surroundings of these plants, there are many villages. Noise from the plants causes slow and gradual effect to ear drums. Carbon particles in the dust released from the plants affect growth of crops and destroys produce. Villagers have a little knowledge on the bad effects of carbon emission. Since Brahmadevam village is surrounded by Power Plants and the village is affected by carbon emission, air pollution, we have chosen this village to conduct an awareness programme to the villagers on these issues. Faculty suggested the above said remedies to the problem.

Report on Check Dams – Water Conservation in Dry Areas

1	Name of the Activity/Event	CHECK DAMS CONSERVATION IN DRY AREAS		
2	Date of Activity/Event	August 10th, 2017		
3	Organized by/Name of the committee	Department of Civil Engineering		
4	Place of Activity/event	Udayagiri, Nellore district		
5	Type of activity/Event	Awareness programme		
6	Activity/Event objectives	6. The structure should be able to store a high volume of rain-water 7. Recharging groundwater 8. Increasing soil humidity 9. Promoting growth of surface vegetation 10. Capturing runoff rainwater and silt		
7	Participation	Students	Faculty	Total Participation
		43	4	47
8	Enclosures	1.Report 2.Photos		

REPORT:

Despite plenty of rainfall every year, some of the areas nearby our college have water shortages and droughts. The scarcity of water forces them to depend on rain water. But, the seasonal rain water is being wasted. It is not coming to their use when needed as there are no tanks and wells. Hence, we have chosen this village to bring awareness on the necessity of check dams to conserve rain water.
