12	<b>Signature of In charge/convener</b>		

Narayana Engineering College has always encourages students towards their hobbies, as a part of this Narayana Engineering college started "**Hobby Clubs**" to motivate the students to show their talents hidden in their hobbies. Hobby clubs includes six different clubs according to student's hobbies, they are listed as below

1. Swara club – Students can enhance their singing talent
2. Chitra club – Students can show their talent in photography
3. Chala chitra club – Students can show their talent in short film making
4. Abhinaya club – Students can show their talent in acting
5. Vachas club – Students can show their talent in speech
6. Varna club - Students can show their talent in different areas like rangoli, mehandi, and best from waste, etc.

A **pet**, or **companion animal**, is an animal kept primarily for a person's company or entertainment rather than as a working animal, livestock or a laboratory animal. Popular pets are often considered to have attractive appearances, intelligence and relatable personalities, but some pets may be taken in on an altruistic basis (such as a stray animal) and accepted by the owner regardless of these characteristics.

Two of the most popular pets are dogs and cats; the technical term for a cat lover is an ailurophile and a dog lover a cynophile. Other animals commonly kept include: rabbits; ferrets; pigs; rodents, such as gerbils, hamsters, chinchillas, rats, mice, and guinea pigs; avian pets, such as parrots, passerines and fowls; reptile pets, such as turtles, alligators, crocodiles, lizards, and snakes; aquatic pets, such as fish, freshwater and saltwater snails, amphibians like frogs and salamanders; and arthropod pets, such as tarantulas and hermit crabs. Small pets may be grouped together as pocket pets, while the equine and bovine group include the largest companion animals.

Pets provide their owners (or "guardians") both physical and emotional benefits. Walking a dog can provide both the human and the dog with exercise, fresh air and social interaction. Pets can give companionship to people who are living alone or elderly adults who do not have adequate social interaction with other people. There is a medically approved class of therapy animals, mostly dogs or cats, that are brought to visit confined humans, such as children in hospitals or elders in nursing homes. Pet therapy utilizes trained animals and handlers to achieve specific physical, social, cognitive or emotional goals with patients.

A Netherland Dwarf rabbit on a swing

People most commonly get pets for companionship, to protect a home or property or because of the perceived beauty or attractiveness of the animals. A 1994 Canadian study found that the most common reasons for not owning a pet were lack of ability to care for the pet when traveling (34.6%), lack of time (28.6%) and lack of suitable housing (28.3%), with dislike of pets being less common (19.6%). Some scholars, ethicists and animal rights organizations have raised concerns over keeping pets because of the lack of autonomy and the objectification of non-human animals.

As a part of Hobby clubs NEC Nellore, Chithra club has organized a Photo competition " CREATING PHOTO ALBUM ON FAVOURITE PETS ALONG WITH BACKGROUND MUSIC ""on 8 December 2019 at Visweswaraiah Auditorium, Faradays Block. 47 students attended this contest. This competition consists of Presentation of photo album on favourite pets along with background music. All 47 students are so enthusiastic to participate . 3 students got first, second and third prize.

**First Prize:** Syed.Fariduddin,II ECE

**Second prize:** Mourya, III CSE

**Third prize:K.Sai swetha,II ECE**

**Presentation of the photo album by students**

**Guests viewing the presentation**

**Students enthusiastically presenting and waiting for presentation**
