

NARAYANA ENGINEERING COLLEGE : : NELLORE

Department of Computer Science and Engineering

A Technical Talk on “**Tech Trends And Adaption**” was conducted by CSE Department on 25th August 2018 in association with computer Society of India, at Srinivasa Ramanujam Seminar Hall in A-Block, NEC, Nellore. Resource person was **Mrs.Geetha Lakshmi Sr.Software Engineer, Infosys**.She explained the overview of some of the current technical trends and adaptations that are happening in various industries.

The Resource person covered the major topics in this program are:

- Introduction to the Concepts of Artificial Intelligence (AI) and Machine Learning (ML).AI and ML are used for predictive analytics, process automation, and decision-making.
- Internet of things –Privacy and Security in connected worlds.
- Cloud computing is being used extensively in various industries for data storage, application development, and software testing.
- Cyber Security - protect networks, data, and systems from unauthorized access.
- 5G Technology -mobile networks
- Blockchain Technology
- Augmented Reality (AR) and Virtual Reality (VR) - AR and VR are being used in various industries, including gaming, education, and healthcare.

Resource Person Delivers the Lecture

Participants in the session

Finally, the resource person concluded that organizations are leveraging these technologies to improve efficiency, reduce costs, and enhance the user experience. Therefore, students can gain valuable information about current technological trends and adaptations. Total 85 students were attended and got knowledge on technical trends in this program.
