The Department of CSE has conducted poster presentation on "**Emerging trends in Computer Science**" at 11:00 Am, under the Students Association named as **ASSOCIATION OF COMPUTER ENGINEERS (ACE)**. In this event the Students from II, III, IV year B. Tech are actively participated with a great interest and made it a grandsuccess.

A poster speaks itself; the presence of its author is not necessary. It is therefore possible to reach a broader audience when compared to a presentation limited in time. It is also possible to present several posters in the same room and at the same time; visitors can have a look at those posters they are interested in. Posters can be used several times and presented at different events. By these advantages a poster presentation will be very helpful for the students.
