DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Report on "Role Play & Quiz"

ELECTRONICS AND COMMUNICATION ENGINEERING department has Conducted **"Role Play & Quiz"** on behalf of **"AKHYANA (students association)"** on 16/03/2020. Students of II Year B.Tech students were participated in this event.

Role-playing provides a safe environment to encounter different scenarios for the first time, which builds confidence in team members that can help them in their day-to-day roles. Benefits of Role-Play

Some of the benefits of making role-play a part of your career:

Build confidence: When your team role-plays, you can throw any number of situations at them. Role-playing provides a safe environment to encounter these scenarios for the first time, which builds confidence in team members that can help them in their day-to-day roles.

Develop listening skills: Good role-playing requires good listening skills. In addition to understanding the words the other person is saying, it's important to pay attention to body language and non-verbal clues. Better to have your team develop these skills while role-playing than when they're trying to perform in the real world.

Creative problem-solving: No matter how outlandish a situation you create in a controlled environment, generally, something even more bizarre is bound to happen on the job. Role-playing will at least give your team the chance to get some experience in handling difficult situations and in developing creative problem-solving skills.
