Report on "Technical Quiz"

The department of ECE has Conducted "**Technical QUIZ**" on behalf of "**IETE Student Forum (ISF)**" on 24/06/2023. Students of II Year B.Tech ECE were participated in this event.

A Technical quiz is a type of quiz that focuses on testing knowledge and understanding of technical subjects, such as technology and engineering fields. It may include questions related to concepts, theories and problem-solving techniques. Technical quizzes may be used to assess the knowledge of students, professionals, or enthusiasts in a particular field, and may be conducted in various formats, such as quizzes, written tests, or live competitions. The term technical quiz is a capacious one: it can refer to a single game consisting of just a few questions, or it can refer to a large-scale event involving dozens or hundreds of people.
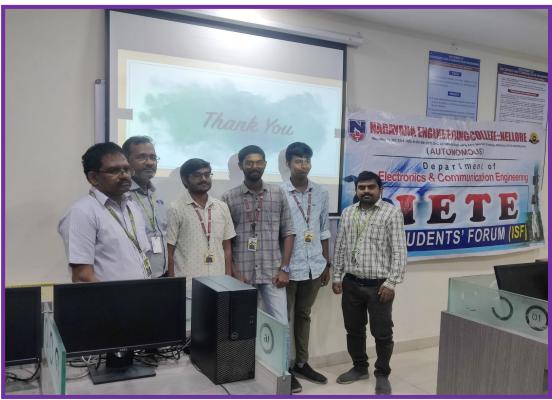

Quiz shows in the classroom can be used by teachers to inspire their students. If students are aware that they will be assessed on the content in front of their classmates later, they will be naturally driven to study more and pay attention in class. Explain to the students before the lesson that the winners of the classroom quiz show will receive no-homework asses or bonus points on a forthcoming test to further motivate them. For a variety of reason students can benefit from quiz in the classroom. Students are betterable to focus and acquire critical problem solving

abilities while engaged in handson activities as opposed to a lecture based learning method. A quiz competition in the classroom would be interesting and entertaining for the students

- Quizzes are fun

- Quizzes raise confidence

- Quizzes for students can aid planning and identify progress

- Quizzes can support individualized learning

- Quizzes are great for plenaries.

- Quizzes are good for revision

- Testing improves knowledge retention

- Testing helps determine knowledge gaps

- Testing can encourage students to learn more

- Testing helps students better organize their knowledge

- Students are better able to apply knowledge to new contexts
