DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Date: 30.03.2016

CIRCULAR

It is hereby informed to all the III B.Tech EEE Students that Department of EEE is organizing a seminar on “**Modern Concept in Power System**” on 04th April 2016. Resource person is Mr.N. Hari Krishna Dy.Manager Sri Rama Electrical Ltd, Hyderabad. All the III B.Tech EEE students are suggested to attend the Seminar.

Venue: Edison Auditorium, B-Block, II Floor

Starting Time: 10.30AM

HOD

Dept. of EEE

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

A Brief Report On An One Day Seminar On Modern Concepts in Power System

Date : 4th April 2016

Venue: Edison Auditorium, B Block, NEC, Nellore

Description of the Event:

Aiming to provide an insight into the Power System, the Department of Electrical and Electronics Engineering organized a Seminar on “*Modern Concepts in Power System*” on 4th April 2016 , for III year B.Tech EEE students successfully. Dr. I. Prabhakar Reddy, Head of the Department of Electrical and Electronics Engineering welcomed the participants and the Guest and introduced the programme objectives to the participants in his welcome address. Around 91 students and the Faculty have participated in the seminar.

Resource person Mr.N. Hari Krishna, Dy. Manager Sri Rama Electrical Ltd, Hyderabad is an Alumni of Narayana Engineering College, who chaired the Seminar. He explained the students that the objectives of the session was to deal with the principles underlying the design of protective systems rather than to describe individual systems. He also explained that the component of electrical power systems, like all other equipment are susceptible to varying degrees of faults of various kinds, caused by internal failures or external factors. The commonest result of such fault is a short circuit on the system, causing current flow of abnormal magnitude. Protective system was developed to detect fault condition in individual components and to initiate the opening of circuit breaker which isolates the faulted section while keeping as much as possible of the power system in operation.

This Seminar has provided the Students an in-depth knowledge on the detailed description of modern concepts in power system. Finally the HOD thanked the resource person for his motivational talk on the subject.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

A Brief Report About A Seminar On Power Electronics and Electrical Drives

Date : 8th April 2015

Venue: Edison Auditorium, B Block, NEC, Nellore

Description of the Event:

Aiming to provide an in depth knowledge on Power Electronics, on 8th April 2015 Department of Electrical and Electronics Engineering organized a One Day Seminar on “Power Electronics and Electrical Drives” successfully for III Year B.Tech EEE Students. Participants and the Guests were welcomed to the Seminar by Dr. I. Prabhakar Reddy, Head of the Department of Electrical and Electronics Engineering and during his welcome speech, he introduced the programme objectives to the participants. Around 93 Students and the Faculty have participated in this event.

The Resource Person , Mr.M.P. Rama Kumar, Vice President, Region Power Tech, Sulerpeta, Andhra Pradesh , who has chaired the Seminar explained the students about Power electronics which allows for the variance of electric motor drive speeds, reducing the amount of energy consumed by making processes more efficient. Without this technology electric motors would always run at full speed consuming more energy than necessary. Power electronics converters also conserve energy by making it possible to transport electricity over long distances with minimal loss during transforming alternating current (AC) into high voltage direct current (HVDC) and vice versa. Moreover advances in power electronics allow power to be delivered in a more dependable and in a less expensive manner saving both energy and costs for the consumer. The energy saved by taking advantage of power electronics is important for our changing environment by using less valuable resources.

This Seminar has given by Electrical and Electronics Engineering the Students an extensive knowledge about the Power electronics and its application to the Electrical Drives. Finally the HOD thanked the resource person for his motivational talk on the subject.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

A Brief Report On A Technical talk On Electrical Safety

Date : 28th January 2016

Venue : Edison Auditorium, B Block, NECN

Description of the Event:

The Department of Electrical and Electronics department has organized a Technical Talk on Electrical Safety with an aim to provide in depth awareness on the Electrical Safety while working with the Electrical appliances, on 28th January 2016 to II Year B.Tech EEE students.

Dr. I. Prabhakar Reddy, Head of the Department of Electrical and Electronics Engineering has welcomed the participants and guests and given the introduction of the Resource Person to the audience.

Mr. K. Giri Kumar, Senior Manager, SK Transformers, IDA, Venkatachalem, Nellore an alumni of Narayana Engineering College, was the resource person who chaired the technical talk given to the students on how Human life is of utmost importance and safety should never be compromised. Electrically powered equipment can pose a significant hazard to human, particularly when mishandled or not maintained. Many electrical devices have high voltage or high power requirements, carrying even more risk. He stated that Electrical shock occurs when the body becomes part of the electric circuit, either when an individual comes in contact with both wires of an electrical circuit, one wire of an energized circuit and get contact with the ground, or a metallic part that has become energized through contact with an electrical conductor. He gave some important tips to be remembered while working with the electrical appliances such as not to touch someone who is electrocuted, to wear the right safety gear, to avoid power lines etc.

This technical talk by Electrical and Electronics Engineering provided the Students broad awareness on Electrical Safety. 89 students and the faculty have participated in this event. Finally the HOD thanked the resource person for his motivational talk on the subject.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

A Brief Report On A Technical talk On INFO about Google Search Engine

Date : 10th March 2016
Venue : Edison Auditorium, B Block, NECN

EVENT'S DESCRIPTION:

With an aim to provide an in-depth knowledge on the Information about Google search Engine for IV Year B.Tech EEE Students, the Department of Electrical and Electronics Engineering organized a Technical talk on “Info About Google Search Engine” on 10th March 2016. Dr. I. Prabhakar Reddy, Head of the Department of Electrical and Electronics Engineering has welcomed the participants and guests and introduced the programme objectives in his welcome address. . A total 65 IV year B.Tech EEE Students and faculty have participated in this seminar.

Mr. B. Vamsi Krishna, Software Developer and Engineer, Google, Hyderabad is an alumni of Narayana Engineering College, who chaired the technical talk, shared his knowledge and experience with the students on Google, which is the premier search tool on the Internet today, featuring not only the best Web search engine, but possesses many additional features including a directory, image search, current news, user groups, and many more. He stated that this would become clear if we look at how search engines work and what makes a good one. An ideal search tool will have a clean interface and be simple to use while still returning useful and pertinent information. Google fulfills this ideal objective by incorporating several defaults and methods of ranking pages. Even a simple search of one or two words usually produces excellent results. He also explained several advantages of Google Search Engine which helps you to find out information related to your search query by categorizing the result types as web, news, maps, videos, blogs etc. There are also advance search options like voice search, filters, Google translate etc.

This Technical talk provided the Students an in-depth knowledge on Goggle search engine Finally the HOD thanked the resource person for his motivational talk on the subject.
