

NARAYANA ENGINEERING COLLEGE:: NELLORE
Department of Electrical & Electronics Engineering
NIPPO FACTORY

On 24/2/17 EEE II B.Tech students got permission to visit Nippo factory, under the guidance of our department. In the factory students observed the process of battery manufacturing .We started from the college at 7.00a.m in our college bus and we reached our destination at 10.45 a.m. After reaching the factory the professional people in the factory explained the components and their working. Also they showed the latest technology equipments and its fast working process.

Such industrial visits organized by Narayana engineering college helps the students to enhance their practical knowledge on industrial sites.
