

### world first day:

The Department of Electrical and Electronics Engineering had organized “**World First aid day**” on 14<sup>th</sup> Sept 2019 in association with pinakini youth welfare Association. The resource person for this program is Gantla Venkata Ravi Kumar. Its main aim is to raise awareness of how first aid can prevent injuries and save lives every day and in crisis situation. It also promotes the accessibility of the first aid. Its primary goal is to protect the life and keep the condition from worsening. Every time it is not necessary that some medical staff help. In an emergency, even ordinary people can help and can save someone's life by providing first aid. First aid kit we mostly have in our home and in fact we should carry it via travelling.
