

PROJECT LABORATORY

This laboratory provides a platform for students and research associates to implement research based projects under the guidance of faculty members. The facility has been utilized by B.Tech and M.Tech students extensively for their project and research work. The outcome of the project has resulted in publications in various journals and conference proceedings (both at national and international level). The centre has provided a learning platform for both students and faculty. This Lab is equipped with various Arduino Boards (Uno, Nano, Node MCU etc), Simple PCB Design and Manufacturing facilities where the Students use this Lab even after College hours to fulfill their research interests.
