Student Association Activities-Report

Date: 10-04-2021

The student association has organized CODING SKILLS for the students of I-MCA. As part of this event, the student coordinators have come up with various snippets of codes for solving control statements, functions, increment/decrement operators etc. They have explained the methods of analyzing the code and some tips to increase accuracy and speed. This will help them to crack the technical tests with ease during placement drives.

The student coordinator is explaining the topic and methods to analyze the logics of code.
After the completion of session students are getting clarification about the snippet of the code and its analysis and output of the code.
